5. EFA Categories
Arkansas EFA has two categories.
Co-curricular: Fine arts instruction, including private instrumental and vocal instruction provided by qualified professionals in-studio, is classified as a co-curricular course under the updated EFA rules.
Extra-curricular: Extracurricular expenses are capped at 25% of the student's EFA funds for the year.
If you are not sure which category EFA has classified your families lessons, email the EFA before you submit with any questions.

A Note From MPA

You are part of our MPA family, and we want to help where we can. This guidance we are sharing is to the best of our understanding of the EFA Program and what is requested of parents. This is our effort to provide the best possible resources we can to this program, to the best of our ability, in an attempt to ease the workflow of filing for EFA reimbursement. It is not an approval, and it is not a guarantee that an expense will be approved with a State Agency. The category and the invoice are yours to submit. Checking the current rules before you file is the surest way to protect your reimbursement since they are changing very rapidly as of this document creation. A denial, a cap, or a filing choice rests with the program, not with the school, unfortunately. Thank you for your understanding to this and we hope this framework helps you navigate the Arkansas EFA program and that it is beneficial to your family.
